EDUCATION

University of Minnesota, 2015-Present

- Ph.D candidate, Physics
- Advisor: Prof. Clem Pryke

The Chinese University of Hong Kong, MPhil, Physics, 2013

- Advisors: Prof. Ming Chung Chu and Dr. Lap Ming Lin

The Chinese University of Hong Kong, B.Sc., Physics, 2011

- with Honours, First Class
- Minor: Mathematics

AWARDS

Antarctica Service Medal, 2021

RESEARCH

Probing Inflation from Measurements of B-mode Polarization in Cosmic Microwave Background (CMB)

- BICEP/Keck Collaboration member (2015-present). Using small aperture telescopes to measure degree-scale B-modes at Amundsen-Scott South Pole Station.
- *Analysis works*: data reduction lead (2019-2022); completed the “BK18” analysis (science results from 2016-18 observing seasons) - the strongest constraint of the tensor-to-scalar ratio r to date.
- *Instrument works*: participated in the development of BICEP Array mount and cryostat.
- *Deployment works*: deployed Keck Array 270 GHz receiver in 2018; deployed BICEP Array mount and 30/40 GHz receiver (first light) in 2020.
- *Ongoing researches*: rewriting the pipeline for BICEP Array; developing a pipeline for BK+SPT delensing analysis.

Searching for Primordial Gravitational Waves with the CMB-S4 experiment

- Conducting foreground studies for large-scale B-mode observation strategy.

Impacts of Relic Neutrino Degeneracies on CMB

- Investigated the impacts of neutrino degeneracies in CMB data fitting, particularly for the constraint of Hubble parameter H_0 and spectral index n_s .

TEACHING

Teaching Assistant, School of Physics and Astronomy, University of Minnesota

- Intro. Physics for Science and Engineering I/II (Spring 2017, Fall 2016, Spring 2016), Intro. Physics I (Fall 2015)

Teaching Assistant, Physics Department, The Chinese University of Hong Kong

- Quantum Physics II (Spring 2013, Spring 2012), Mechanics (Fall 2012), Physics Laboratory I (Fall 2011)

OUTREACH BICEP Array Telescope Open House, Martin. A. Pomerantz Observatory, Feb 2 2020

- Exhibited the fully functional BICEP Array telescope to support personnel of the Amundsen-Scott South Pole station.

BICEP Array Mount Open House, University of Minnesota, May 5 2019

- Demonstrated the scanning of the BICEP Array receivers on its mount to people of the School of Physics and Astronomy.

LANGUAGES

- Native proficiency in Cantonese
- Native proficiency in written Chinese
- Full professional proficiency in English

COMPUTER LANGUAGES Python, MATLAB, HTML, JavaScript, FORTRAN, \LaTeX
